**RE: Federal Permit Number: NH0000710
Discharge 001**

Dear Ms. Mason:

I enclosed the September 2014 Discharge Monitoring Reports for the Powder Mill Fish Hatchery for Discharges 001.

pH analysis was not conducted the week of 09/15 to 09/19 due to the facility meter being sent out for annual calibration.

Facilities spare meter was not found in time to perform test. Spare meter will be kept at this location in the future to prevent this from happening again.

The weekly tests are performed by the Fish Culturists at Powder Mill Fish Hatchery.

Thomas W. Givetz
